Palo Alto Networks Training at Red Education

Our Palo Alto Networks courses deliver the knowledge and expertise for enterprises to protect our way of life in the digital age. The training covers Next-Generation Security Platform expertise necessary to prevent successful cyberattacks and safely enable applications.

SECTOR - IT SOLUTION PROVIDER

This Saudi-based client is a digital transformation solution provider, specialising in information technology solutions and services to enable their clients' digital transformation journeys.

CHALLENGES ⌄

Located in Saudi Arabia, this client needed to upskill a team in critical Palo Alto Networks Firewall technology.

The challenge was that the client's team was based in Los Angeles, USA, and required classroom-based training. They therefore needed a global training provider with teams throughout the world who could match their needs.

SOLUTIONS ⌄

Red Education tailored the delivery of Palo Alto Networks EDU-210 Firewall Essentials: Configuration and Management Training and, thanks to our global customer service and instructor team, we could meet the client's requirements.
As part of our training solution, we provided participants with official take-home training materials, lab access, and a PCNSA exam voucher.

OUTCOMES ⌄

Upon successful completion of the training, the team gained the skills to competently configure and manage Palo Alto Networks Firewalls.
As the client's business involves providing IT infrastructure solutions, obtaining certification serves as a crucial signal of the team's proficiency with this critical Firewall technology.
