

Prisma Access Browser

The Prisma Access Browser course introduces you to the operational deployment of Prisma Access Browser and how it helps organizations meet the needs of the modern workforce by providing cloud-based network connectivity and security services.

This course will enable you to deploy, configure, maintain, and troubleshoot Prisma Access Browser using Strata Cloud Manager. The course is intended for professionals in cybersecurity and public-cloud security, as well as general network-security professionals who want to learn how to secure the last mile through a secure enterprise browser.

Course Modules

- 1 - Prisma Access Browser Overview
- 2 - Architecture
- 3 - Policy
- 4 - Monitoring, Logging, and Troubleshooting
- 5 - Prisma Access Browser Extension
- 6 - Prisma Access Browser Mobile

Scope

- **Duration:** 1 day
- **Format:** Lecture and hands-on labs
- **Platform support:** Prisma Access 6.0, Strata Cloud Manager, Palo Alto Networks next-generation firewalls running the PAN-OS® operating system

Objectives

Successful completion of this one-day, instructor-led course will help enhance your understanding of how to secure the internet and private applications better using a secure enterprise browser.

In a lab environment, you will get hands-on experience configuring, managing, and troubleshooting Prisma Access Browser via Strata Cloud Manager.

Target Audience

This course is intended for Security Engineers, Security Administrators, Security Operations Specialists, Security Analysts, and Network Engineers.

Prerequisites

Participants should have a basic knowledge of cloud computing and public cloud, as well as experience with networking concepts, including routing, switching, and IP addressing.

In addition, participants should complete the following prerequisites to be optimally prepared for the course:

- Prisma Access (Strata Cloud Manager) digital learning paths
- (Recommended) Firewall Essentials: Configuration and Management or equivalent experience.

Palo Alto Networks Education

The technical curriculum developed by Palo Alto Networks and delivered by Palo Alto Networks Authorized Training Partners helps provide the knowledge and expertise you need to protect our digital way of life. Our trusted certifications validate your knowledge of the Palo Alto Networks product portfolio and your ability to help prevent successful cyberattacks and safely enable applications.
